Missouri Pacific Report of Net Earnings in January Received Favorably—Time Money Firmer.

REPUBLIC SPECIAL.

New York, March 27.—The general market in London was very strong during the forenoon, particularly for Americans, which showed an advancing tendency on buying, mainly for New York account. The consols were 1/2 per cent higher, but discounts and foreign exchanges on London remain the same. Toward the close a less favorable view was taken of the foreign situation, prices eased somewhat. The foreign markets were irregular.

On expectations of an early announcement of absorption of Chicago, Burlington and Quincy in the interests of other Northwestern roads, commission-houses had a great number of orders to buy stock at the opening. Advances throughout the list were shown, but stock was supplied freely, and considerable recessions in prices were experienced at the close. The action of the Missouri Pacific management in reporting net earnings for January was well received, and exerted a favorable influence on the price of the stock. Other Northwestern roads sympathized with the Missouri Pacific, and some other system, and Colorado and Southern were being bought on somewhat similar rumors.

A number of very favorable statements of earnings were put out including those of Missouri Pacific, Northern Pacific and Jersey Central, but in the reactionary temper they did not exert much influence. The time money market was firm, and all rates touched 3 per cent, but dropped back to 2 per cent near the close. The market for Northern Pacific and Burlington was well maintained and in the last hour Denver advanced on consolidation rumors. Sugar advanced sharply in the last hour and the buying was regarded as good. Smelters was stronger on expectation of a favorable decision this week.

New York Curb Stocks.
